

Want to catch  
**A THIEF**  
in the act?

**STOP LEAKS**  
before they drain  
your budget.

*Saving water is something that we can all do, but sometimes it's hard to know where to get started. We are excited about this new guide from AMWUA that shows how Arizona residents can take simple steps to find and fix those small leaks that add up to big losses. Less water wasted means more water for your community.*

— Veronica Blette  
EPA WaterSense Program
